

**CASE STUDY**

# LiquidGuard PU

## Brook St, Ipswich

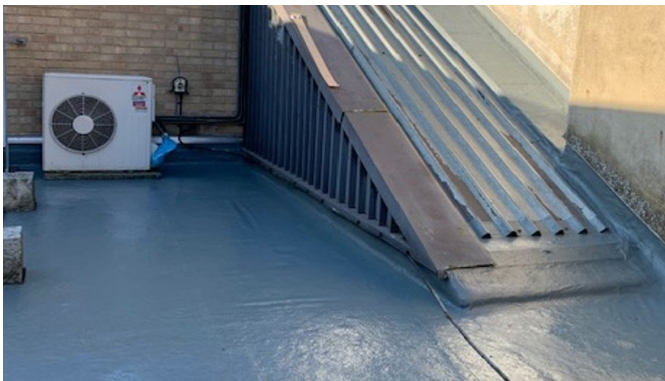

### Background

The project is a retail outlet in Ipswich, the existing weatherproofing system had come to end of its lifespan but no water ingress was found, so a liquid overlay system was specified at the clients request.

### Solution

Although the present Asphalt system was coming to its lifespan it was of a condition to enable it to receive a LiquidGuard liquid overlay. The weatherproofing system was cleaned and checked for cracks and blister to the surface, before receiving 3 coats of reinforced LiquidGuard, to enable the client to receive a 20 year guarantee.
